Background

Summary

I am a results driven Operations Manager with a proven record implementing process improvement, lean manufacturing, and team building directives. My progressive leadership experience have forged a hands on leader that has successfully restructured manufacturing, and administrative environments. My focus on team builds a strong core management unit of leaders driven to succeed, and supported by their staff. I have a strong background providing operational improvement through effective cost reduction strategies focusing both on short term cash flow stabilization, and continuous process improvements that lead to increased production gains to exceed operational goals.

Experience
